TEENS TEACH TECH

POWERED BY AT&T

EMPOWERING YOUTH TO TEACH, CONNECT AND INSPIRE ACROSS GENERATIONS

"SEEING ADULTS I KNOW LEARN HOW TO USE THEIR SMARTPHONE AND NOT FALL FOR SCAMS WAS SO REWARDING."

– STUDENT, ANAHEIM CA

Teens Teach Tech, powered by AT&T, is a national program that equips students (8th to 12th grade) to deliver digital skills training to adults in their communities. Launched in 2022, Teens Teach Tech provides curriculum, mentorship, and resources to help students design and lead workshops on internet safety, device use, and online confidence. With over 150+ teams in 40+ states, the Teens Teach Tech, powered by AT&T, program fosters meaningful intergenerational connections while addressing the Digital Divide.

This is a program of **Connected Nation**, a 20+ year old national nonprofit dedicated to improving lives through increased access, adoption, and use of technology.

CONNECTED NATION®

Everyone Belongs®

As a mentor, you will inspire, guide, and support teens while ensuring safety, learning, and program fidelity.

ELIGIBLE ORGANIZATIONS

- Clubs
- Schools
- Youth Organizations
