Dear Academic Decathlon® Coach,

Welcome to the 2026–2027 Academic Decathlon Season!

This year's theme will be

Journeys of Transformation: An Exploration of Travel and Transportation

In this U.S. Academic Decathlon Program Brochure, you will find the essential resources your team will need to participate and compete successfully in the U.S. Academic Decathlon®.

Please take note of the following information from this year's U.S. Academic Decathlon® Study Guide.

Essential Information for Coaches

- ◆ The United States Academic Decathlon competition is comprised of ten events. There are seven multiple-choice exams—one in each of the following subject areas: art, economics, literature, mathematics, music, science, and social science. Students will also take an essay exam and will be judged in a speech event as well as an interview event.
- ◆ The culmination of the competition is the Super Quiz™ relay. The Super Quiz relay includes questions (in multiple-choice format) from the following seven subject areas: art, economics, literature, mathematics, music, science, and social science.
- ◆ For all Academic Decathlon competitions prior to Nationals, the multiple-choice exams in art, economics, literature, music, science, and social science each have 50 questions. The mathematics exam has 35 questions. Coaches can contact their State Director to find out the format that will be used for the Super Quiz relay.
- ◆ At the 2027 Nationals, the number of questions per test may differ from the number of questions per test at regional and state competitions. The U.S. Academic Decathlon will inform teams of the number of test items in each subject at Nationals prior to the event.
- ◆ For all Academic Decathlon competitions prior to Nationals, students will be given 30 minutes to complete each of the written multiple-choice exams.
- ◆ Students will have 50 minutes to complete the essay exam.
- ◆ Students will not be permitted to use calculators during any 2026–2027 Academic Decathlon competition events, including mathematics tests. The 2026–2027 Academic Decathlon mathematics tests will only include problems that do not require the use of a calculator.
- ◆ The literature test items will be derived from the selected works of literature and from the information provided in the *Literature Resource Guide*. The literature test will include a critical reading passage with accompanying test items. The literature test will also expect students to be able to analyze the selected works of literature as well as the critical reading passage and will expect students to be familiar with literary terms and devices.
- ◆ The United States Academic Decathlon competition tests will be written in accordance with the topics and percentages noted in the subject area outlines that are published in the Academic Decathlon Study Guide.
- ◆ The United States Academic Decathlon offers Resource Guides and Student Exercise Books in art, economics, literature, mathematics, music, science, and social science. The Resource Guides and Student Exercise Books will assist students in their study of the topics listed in the subject area outlines. All USAD competition test items will be derived

from the information and concepts presented in the Resource Guides as well as the selected literature, artworks, and musical works.

- ◆ The 2026–27 mathematics curriculum and materials (including the subject area outline, Resource Guide, Student Exercise Book, and Notebook Divider) will be the same as were used for the 2023–24 United States Academic Decathlon.
- ◆ All curriculum and practice test materials, except for the Notebook Dividers, are available in digital format only. The Notebook Dividers are available in print format only.
- ◆ USAD will provide participants with the titles (and featured composers and/or artists where applicable) of the fourteen selected musical works.
- ◆ While the *Art Resource Guide* includes information relevant to the eighteen selected artworks, this guide contains text only and does NOT include images of the artworks.
- ◆ The *Art Reproductions Booklet* contains reproductions of the eighteen artworks that are included in this year's art outline. However, please

be aware that no text beyond the title, artist, date, etc., accompanies these artworks.

- ◆ Test writers have been instructed to construct tests such that at least 10–20% of the questions on each test require the use of higher-order thinking skills.
- ◆ All USAD materials are copyrighted. USAD materials may not be duplicated or posted to any public or private sites on the Internet for any reason without written permission from USAD. Violators may be prosecuted.
- ◆ **New product release!** FlashDec is a flashcard-style mastery system aligned to the USAD Resource Guides. Over fifteen thousand concise fill-in-the-blank items built directly from the official Resource Guides. Students test their recall and rate each card's difficulty. The system adapts, automatically prioritizing harder material for review. Coaches can track study time, monitor progress, and identify knowledge gaps across their team. FlashDec will replace the traditional hard copy and electronic versions of the USAD Flashcards and will be offered as a single item, or in two of the Practice Test Packages.

UPDATED ORDERING PROCESS!

USAD is excited to share that all orders will now be processed online through our new online ordering system at: <https://materials.usad.org/>.

Our updated platform makes ordering easier and more convenient than ever:

- ◆ Submit **Purchase Orders (POs)** or pay by **credit card**
- ◆ Order **hard copy and online materials together** in one transaction
- ◆ Create your own account for streamlined access
- ◆ Materials automatically distributed directly to your account
- ◆ Access materials on the official release dates (if items are released on different days, they'll become available accordingly)

We look forward to providing a smoother, more efficient ordering experience for everyone! If you have questions or need assistance, please email info@usad.org.

United States Academic Pentathlon®

2026 – 2027 Competition Year

The premier scholastic competition for 6th, 7th and 8th grade students!

OVERVIEW

- United States Academic Pentathlon, the premier national scholastic competition for middle school students, was created to provide opportunities for students to experience the challenges of rigorous team and individual competition.
- The five-event academic program strives to foster a greater respect for knowledge, to promote wholesome inter-school academic competition, and to further develop student communication skills.
- Academic Pentathlon is uniquely designed to include students with a wide variety of academic abilities.

GETTING STARTED

- Academic Pentathlon teams should consist of a maximum of nine team members and a minimum of six team members. All students must be currently enrolled in grades 6–8. Each team must consist of at least two “A” students, at least two “B” students, and at least two “C or below” students. The team score will be determined by the sum of the top two student scores in each GPA category. The GPA Calculation Form can be found on the [USAP web page](#).
- Teams advance through local, regional, and state levels of competition. The state champions compete in the national finals. MOST Academic Pentathlon competitions take place online in a virtual testing environment, so there is no travel required for teams! The National Academic Pentathlon competition is held in a physical location.
- Academic Pentathlon teams are encouraged to partner with local high school Academic Decathlon teams, perhaps having Academic Decathlon students serve as mentors to Pentathlon students.

CURRICULUM

- Academic Pentathlon’s curriculum is an interdisciplinary curriculum in which a selected theme is integrated across five different subject areas: fine arts, literature, mathematics, science, and social science.
- The Academic Pentathlon theme parallels that of the high school Academic Decathlon program.
- The theme for the 2026-2027 will be *Journeys of Transformation: An Exploration of Travel and Transportation*. The themes are developed by our curriculum team with special attention to national content standards.
- The materials will be available for downloading in PDF format on August 1st each year. The site license fee allows you to download as many copies as needed. Novels may be purchased via online vendors such as Amazon or via your regular school vendors. The featured novel for 2026-2027 will be announced soon.
- All test questions will be derived from the USAP curriculum.
